

BBT9

Technology Education Module List

In BBT, you need a 3-ring binder that will remain in the classroom at all times.

Pick one module from each group. Write your module name on the record sheet and have the instructor initial your mark on each rotation.

Units:

- Module Rotation (3 opportunities to choose modules)
- Internet Safety
- Keyboarding
- Word Processing/Spreadsheets
- Shop Racing Project

Modules:

Programming

Programming***
HTML***
Lego Robotics**
Web Page Design***

Required

Advanced Word Processing
Digital Citizenship
Spreadsheets

Design

3D Home Design**
Engineering**
Google Sketchup**
Incredible Machine***

Vocational

Small Gas Engines**
Building Construction**
Electricity**

Personal Development

Safe Driving*
Weather*
Flight***

Communications

Paint.net*
Claymations*
iMovie**

Objectives

1. Demonstrate the knowledge and skills related to the technology in the module in a variety of ways: products, blogging, emailing, conversation with your partner and the teacher, and through teacher observations.
2. Demonstrate good work skills, computer ethics, a good attitude about technology, good teaming skills, and information about careers in technology.
3. Complete chosen activities that provide a sense of careers in those areas.
4. Develop technology skills in the area of Word Process, Spreadsheets, and Keyboarding
5. Work towards greater personal safety by understanding the 9 areas of digital communication

Evaluation

Modules: You will be evaluated in several ways: **Products, Observations, and Conversations**

- Teacher: each day the teacher will observe you working and discuss with you the process.
- Students will present their work to the teacher on Day 10 and will work cooperatively with you to establish a mark based on your end product, the process, discussion/resolutions of issues/problems.

If absent or not prepared on evaluation day it is your responsibility to arrange a time **out of class** to present your work to me.

- You have up to three school days to do this.

Individual Digital Assignments: Assignments will be put in my electronic drop box for evaluation. A rubric is available to see how you will be assessed.

Other assignments: Keyboarding, blogging, and email will be assessed by the teacher based on the criteria indicated.

Class Rules

- ✓ Be on time!
- ✓ Come to class prepared to work
- ✓ No Gum, Cell Phones, Caps, Music Devices, or food/drinks in the Tech Lab
- ✓ Respect the people and equipment (put things away when done)
